There is considerable excitement in section over the recent rich strikes in Butte Valley, Inyo county, near the boundary line of San Bernardino county. A short time ago Wm. Morrison, an old miner and prospector well-known in this county, re-discovered a lost claim known as the Breyfogle claim. He brought to Calico some rich specimens, and endeavored to keep his discovery secret, but it became known to certain parties, who quietly started out from parties, who quietly started out from some other parties, having learned the exact location of the new strike, started in hot haste for that region, but when they got there they found that Mr. Hickey, of Calico, had got one day the start of them, and had located about twenty claims, including H. W. Lake, of this place, as one of the locators.

We were shown specimens from Morrison's claims, which looked fine. A specimen of this rock was assayed, resulting in \$3490.58 gold to the ton and The location of the new strike is about 130 miles north of Daggett, 20 miles west of Death Valley and 35 miles south of Panamint. Recently the depot at Daggett has been quite lively, caused by the passing to and fro of numerous daily and special trains between Mojave and the front. Every day long trains drawn by two locomotives each pass through to the front, loaded with ties, rails and other freight. We counted fifty cars in one train. Track laying at the end of the road is going at the rate of two miles a day, and it requires the prompt delivery of an immense amount of material to supply the demand of the builders.

Marvellous cure by magnetism:—The undersigned take much pleasure in recommending to those suffering from pain or disease, Dr. E. Robbins, of 195 Main street, as a genuine Magnetic Healer. We have had experience with healers for 30 years past, and he is one of the best we have ever met. Mrs. Glover had been failing in health for six months, and on January 8th was taken worse with congestion of the lungs and a complication of diseases. We called in Dr. Robbins, and without explanation he correctly diagnosed her case, describing per symptoms: then, by laying his hands on called in Dr. Mobbins, and without explanation he correctly disgnosed her case, describing her symptoms; then. by laying his hands on the affected parts, instantly relieved her, and, after three weeks treatment, without medicine, she feels better than she has been for years, and we cannot give too much credit to the docator who, by God's help, has done so much for her; and we know the power is given him to do the same for others. Come and see Mrs. Glover, at No. 29 Fort street.

Water Analysis. San Francisco, September 18, 1882.

For Mr. Victor Beaudry, Los Angeles:

I have carefully analyzed the sample of water—marked as under—and find the following to be the proportions in every 100 parts:

[Mark of sample, Los Angeles.]

Solid residue, 39.16 grains per United States ine, 2.39 grains per United States gallon

The water does not indicate the presence of an injurious ingredient in abnormal quantities, an is a good quality of water for detetic purposes it is free from any sewage contamination.

Respectfully submitted;
THOMAS PRICE, M. D. NOTICE.
